Welcome Back! It was a great summer!

It was a great summer in the TSYS School of Computer Science. We hosted 16 different computer science themed Activ8 camps for over 200 students. In addition, 13 students from Girls, Inc. joined us for three weeks to learn about creativity in computer science and a group of 20 high school students attended a three day workshop on cybersecurity in our Cyber Defense lab. Thirty students from the Canty Hall community program visited to learn robotics and how to make music through programming. We also hosted 30 local elementary school teachers for a computational thinking workshop funded by USG and Google and 20 middle/high school teachers for a GenCyber cybersecurity camp funded by the NSA. CSU also hosted 8 undergraduate students from around the country for a Research Experience for Undergraduates (REU) doing research on cybersecurity for mobile systems. It was a great and busy summer! Welcome back everyone and welcome new freshman!
REU Students
Eight top undergraduate students spent their summer in the TSYS School of Computer Science researching cybersecurity for mobile devices with faculty members Alfredo Perez, Yesem Peker, Paul Wang, Suk Lee, and Radhouane Chouchane.

Teacher Workshops
Teachers learned cybersecurity and computational thinking this summer with faculty in the TSYS School of Computer Science.

Game Design Class
Students designed and created board games this summer in Dr. Obando's Game Design Course.

Get Involved with Student Organizations!

CSU Student Chapter of the ACM  
(Association of Computing Machinery)

BBS (Black Box Society)

Board Games Club

CSU Student Chapter of the GGDA  
(Georgia Game Developer's Association)

STARS (Students, Technology, Academics, Research, and Service)

WIT (Women in Technology)

Check the bulletin board on the fourth floor of CCT for upcoming meeting dates and times.

Upcoming Events at CSU

Student Q&A with Steve Wozniak
August 27, 2018 5:20p-5:55p
Black Box Theatre in the Riverside Theatre Complex
Seating is limited.
Email: gunnels_suzanne@columbusstate.edu for questions and to register.
